PROJECTS

Happy Foods — South Indian E-commerce Food Website

- Developed a fully functional e-commerce website named “Happy Foods” using WordPress. The website focuses on South Indian cuisine and provides a smooth, user-friendly browsing experience. Implemented theme customization, plugin integration, and responsive design to make the website mobile-friendly and compatible across all devices.

Game Development & Marketing Agency Website - IT Agency Project

- Developed a WordPress-based website for an IT agency specializing in **game development and marketing services**. The website was designed to showcase the agency’s developed games and services in a professional manner. Created **custom single game pages with detailed descriptions** and integrated links redirecting users to the **Google Play Store** for downloads. Ensured a responsive and mobile-friendly design for better user experience across all devices.

Cake Shop Website - Static Website

-Developed a responsive **Cake Shop website** using **HTML and CSS**. Designed a clean and user-friendly interface using core HTML elements such as **navbar, div, p, a tags, and id attributes**. Implemented navigation links using anchor tags to connect multiple pages, ensuring smooth page navigation and a structured layout.
